- We will collect trade history, account balances, and position data from connected brokerages through our third-party aggregator.
- Connecting a brokerage account is entirely voluntary.
- Your brokerage credentials are never stored by TradVue; they are processed directly by the aggregation service under that service's terms and privacy policy.

2.7 Communications

If you contact TradVue support or send us an email, we retain the content of your communications to respond to you and improve our support.
